

DIÁLOGOS VIRTUALES

A Lecture-Discussion Series on Diversity, Equity, Inclusion & the Global Dimensions of Education

Mindful & Courageous Dialogues for DEI Action

As an engaged and dynamic academic and professional community of students, faculty, and staff committed to advancing diversity, equity, inclusive excellence/belongingness and anti-racism, we engage in critical readings and dialogues for continuing to create conditions and contexts that support our personal, institutional, and social work for transformation. These critical dialogues are open to College of Education and the greater SDSU community members. Discussions are based on the text being studied-discussed during a particular semester. All participants are welcome to engage in active dialogue and reflection.
