- Two-Way Developmental: composed of balanced (or nearly balanced) numbers of English-fluent speakers and English learners of the targeted second language.
- One-Way Developmental: serving a population of mostly English learners with a common home language.
- One-Way FL: serving a population of mostly fluent English speakers students who are all learning the second language

In a 90:10 model the amount of the target language, starting 90% of the time in kindergarten, decreases yearly as English increases until there is a 50:50 balance of the languages generally in grades four through six. A 50:50 model uses English and the target language for 50 percent of the time throughout the duration of the program.

* Home of the Riverview Elementary (Riverview International Academy) for kindergarten

** Home of the Riverview Elementary (Mandarin Language Academy) for kindergarten

*** Program begins at Vista del Mar Elem. and continues at Ocean View Hills Elem.
