Mainly Mozart Festival is thrilled to present

An exciting & empowering autism symposium in San Diego

**June 1-2, 2019**

**featuring Dr. Temple Grandin!**

Lectures, discussions, an Art Expo curated by The Art of Autism, and beautiful musical performances! Many of our speakers, artists and musicians are on the autism spectrum, and eager to share work and their personal stories with you! You will also learn from them directly what helped them, what didn’t help much, and what they would like to see happen differently.

**June 1 at Qualcomm Hall - “Success on the Spectrum”: What is possible when we focus on STRENGTHS!**

Meet DR. TEMPLE GRANDIN at her keynote speech and book signing. Alongside Dr Grandin, meet 14 year old poet Matteo Musso, 11 year old author Diego Peña, and many noted speakers, artists, musicians, and professionals from across the wide autism spectrum! Brilliant Pianist DEREK PARAVICINI will close the day with his breathtaking piano performances, taking requests directly from the audience!

**June 2 at The Scripps Research Institute Auditorium – “Orchestrating Strengths”: How to notice, nurture & expand strengths on the spectrum**

Exploring different approaches to education, enrichment, therapy, employment and empowerment. Closing June 2 is our Interactive Panel, a unique opportunity to bring forth your ideas, questions and concerns to our expert panel, and share what you would like to see happen in your communities!

**Mozart & the Mind Leadership Circle**

Joann Clark  
Una Davis and Jack McGrory  
Steve and Sue Hart  
Tracy Yeo and Steve Prestreiski
