THAN A Job**

NOW HIRING Behavior Specialist Oceanside

- Collaborative team culture providing a high level of support to the children in the community
- Competitive salary with full benefit package (including medical, dental, vision, educational assistance, and more)

APPLY NOW!

The Behavior Specialist is responsible for the following:

- Screening, assessment, treatment and intervention planning (individual or group) to support the behavioral, social, and communication needs of children.
- Individual and group treatment based upon the needs of children and families. Treatment includes parent education within the context of treatment protocol, and may require reassessing parents' need for additional education on a session-by-session basis. Group treatment includes creating and/or following child and parent training curricula. Individual treatment includes (as needed) case management and community observations of at-risk children to offer guidance on treatment and behavioral support options.

Qualifications:

- Masters degree in social work, psychology, education, or related field
- 2 years experience working with children under the age of 6 and their families
- Bilingual, Spanish-English speaking Required

Want to be part of our mission of delivering outstanding care to every child?
