Developmental Screening and Enhancement Program (DSEP)

Rady Children's Hospital-San Diego

The Developmental Screening and Enhancement Program (DSEP) at Rady Children's Hospital-San Diego provides developmental and social-emotional/behavioral services for children under the age of 6 years entering the San Diego County Child Welfare System.

Developmental Specialist positions open!

All positions are benefits-eligible

The DSEP Developmental Specialist is responsible for the following:

- Provides screening for all areas of development (speech and language, fine motor, gross motor, cognition, and social-emotional/behavior) with specific age requirements per program standards.
- Provides individual intervention based upon the needs of children and families. Intervention includes child enrichment and parent education within the context of intervention protocol, and may require reassessing children's and parents' need for additional education on a session-by-session basis.
- Provides long-term facilitated case management to ensure children access needed services

Minimum Qualifications for Developmental Specialist Position:

- Bachelor's degree in psychology, education, or related field
- 6 months experience working with children under the age of 6 and their families
- CA Driver's License
- Proof of auto insurance
- Bilingual, Spanish-English preferred
