

CRMSE Colloquium

Ximena Cid

Professor and Chair
Department of Physics
CSU Dominguez Hills

Dr. Cid identifies as Chicana and Yaqui and is one of only six indigenous Ph.D. holders in physics and astrophysics in the nation.

The Demographics of PER: Where We Are At and What Needs To Change

**Friday March 26th
11:30am to 12:30pm PST**

Is physics education research based on a representative sample of students? This talk will explore the current state of physics education research papers and compare the demographics of this population to those of all students in the United States to bring up concerns about the generalizability of this research to all student populations.
