## PIPELINES2 Persona Series

Authors: Marcella Garcia, Ashley Davis, and Tabassum Ali

Two-year old Max is an only child. His parents and grandparents live in the home. His dad works outside of the home. His mom is a student and stay-at-home mom. His grandparents (Dad's parents) live in the home also; they are retired. The grandparents speak only Spanish; mom and dad speak both English and Spanish at home. Max has a speech delay and is beginning speech therapy. He usually has a happy disposition but does sometimes have tantrums, usually brought about by frustration.

Max loves cars, books (especially interactive books such as "peek-a-boo" or books with textures such as "That's Not My Puppy." He also loves the movie *Frozen*, and his mom is glad that he is able to play with toys that are outside of the strict gender "boy" category or gender role. Max also loves exploring at school, including throwing balls and pushing cars. A couple of things Max does not like are vegetables, and being told no.

Max is very attached to his teachers Ms. Lisa and Ms. Kimberle. He is also very attached to two of his aunts (mom's sisters) and has two special friends in his class at school: Quinn and Henry.

Max's loves language is touch. He is currently in occupational therapy to build certain skills: he currently doesn't eat w/spoon or fork, doesn't assist in dressing himself. Max had a hard time at school at first but now enjoys it.
