

College of Education Grants, Contracts, and Other Externally Funded Projects

July 1, 2012 to June 30, 2013

2013

A Message from the Dean

The College of Education at San Diego State University holds as one of its primary tenets a commitment to improving the field of practice through the application of knowledge and through strategic partnerships to facilitate positive change. The College's ability to secure external funding for research, evaluation, training, and demonstration projects is one measure of success in fulfilling this commitment.

This report presents descriptions of the grants, contracts, and other externally funded projects in operation under the auspices of the College of Education during the period from July 1, 2012 to June 30, 2013. Included are projects and programs representing the work of 28 Education faculty and administrators who serve as Principal Investigators and Project Directors.

These efforts resulted in a total of \$13,808 million for the College of Education at the San Diego campus in 2012-13. This total includes the College's portion of interdisciplinary grants involving the College of Education.

Organization of The Report

This report provides information about the grants, contracts, and other externally funded projects awarded to the College of Education at San Diego State University during the 2012-13 academic year. The report is organized by the departments within the College of Education. Within each department, grants and contracts are listed in alphabetical order by principal investigator.

Each project description contains these elements: title of the grant or contract, principal investigator or investigators, sponsoring agency, total award for academic year

An appendix provides information about internal grant awards to faculty in the College of Education for academic year 2012-2013. Internal grant competitions include those sponsored by SDSU and the College of Education Inquiry Grant program. At the end of the report is an index of principal investigators.
